

REGISTRATION

Abstract Submission & Pre-registration
Nov. 17 2017 (FRI)

www.kscp.or.kr

Registration Fee

Category	Member	Non-member	Student
Pre-registration	USD 100	USD 150	USD 50
	KRW 100,000	KRW 150,000	KRW 50,000
On-site Registration	USD 120	USD 170	USD 60
	KRW 120,000	KRW 170,000	KRW 60,000

* Annual membership fee not included.

Bank Account Information

- Bank and Branch Name** SHINHAN BANK Seoul National University Bundang Hospital Branch
- Bank Address** 100, Cheongpa-ro 47-gil, Yongsan-gu, Seoul (502, Queen Sunheon Building, Sookmyung Women's Univ.)
- Bank Code** (Swift, ABA etc.) SHBKKRSE
- Account Holder** Korean Society of Cancer Prevention
- Account Number** 100-029-009244

E-mail. kacp@hanmail.net

GENERAL INFORMATION

Sookmyung Women's University

Cheongpa-ro 47-gil 100 (Cheongpa-dong 2ga), Yongsan-gu, Seoul, 04310
T. 02)710-9114 F. 02)718-2337

How to get here

Incheon International Airport

Transport		Time	Fare(KW)
Limousine	No. 6001(Seoul Station)	About 90 minutes	14,000
Taxi	-	About 60 minutes	About 50,000

Subway

From Subway Line 4

Get off at Sookmyung Women's Univ(galwol) Station and approximately 15 minutes walking distance from Exit No. 10.

From Subway Line 1

Get off at NamYeong Station and 15-20 minutes walking distance in the direction of Hyochang Park.

From Subway Line 6

Get off at Hyochang Park Station and approximately 15-20 minutes walking distance from Exit No. 2 in the direction of Hyochang Park

International Conference on the 22nd Annual Meeting of the Korean Society of Cancer Prevention

Dec. 8-9th, 2017

The Centennial Hall (2F, Samsung Convention Hall)
of Sookmyung Women's University

Theme

*Precision Medicine through Cancer Prevention
from Basic Research to Clinical Application*

Deadline for Abstract Submission

& Pre-registration:

Nov. 17th (Fri), 2017

Sponsored by

- Sookmyung Women's University, Cellular Heterogeneity Research Center
- Seoul Nat'l University, Tumor Microenvironment Global Core Research Center
- Chonbuk Nat'l University Hospital, Clinical Trial Center for Functional Foods
- Sookmyung Women's University, Research Center for Cell Fate Control
- Sookmyung Women's University Post, Genome Research Center
- Yonsei University, BK21 PLUS Project for Bioactive Nutrition

INVITATION

International Conference on
the 22nd Annual Meeting of
the Korean Society of Cancer Prevention

Dear colleagues

We now live in the superaged era and "staying healthy" became the most urgent concern in society. Unfortunately, cancer burden is a major health issue accounting 8.8 million global cancer deaths in 2015. Current evidence suggests that 30-50% of cancer deaths could be prevented by modifying risk factors. The mission of the Korean Cancer Prevention Society (KSCP) is to contribute to the national health promotion through research and collaborative efforts for cancer prevention.

We cordially invite you to attend the International Conference on the 22th Annual Meeting for Korean Society of Cancer Prevention to be held on December 8-9th 2017 at Sookmyung Women's University (<http://www.sookmyung.ac.kr>), Seoul, South Korea. The theme of this year's meeting is "Precision Medicine through Cancer Prevention from Basic Research to Clinical Application" This conference will bring together researchers, scientists, and practitioners from the academia, clinics, government agencies, and industry to present cutting-edge research ranging from basic to population-based and clinical studies on cancer prevention as well as therapy.

The scientific program will include plenary lectures and a series of symposium sessions focusing on the latest research. As a well-honored tradition, the presidential lecture session is also included. In addition, a poster session will be arranged for young scientists to present their research progress. We are pleased to have many world-class scientists from different continents.

This conference offers a valuable opportunity by providing participants with the most updated information on the latest scientific advancement in the field of cancer prevention and related disciplines. The organizing committee also hopes that this conference will be inspiring for the academic future generations.

Finally, I would like to express our sincere appreciation to the co-organizers: Sookmyung Women's University SRC, Seoul Nat'l University GCRC, Chonbuk Nat'l University Hospital, Clinical Trial Center for Functional Foods, Sookmyung Women's University MRC, Sookmyung Women's University PGRC, Yonsei University, BK21 PLUS Project for Bioactive Nutrition and sponsors who have provided generous financial support for the successful organization of the conference. We look forward to your active participation and contribution.

With best wishes for an outstanding meeting.

Mi-Kyung Sung, Ph.D

President of Korean Society of Cancer Prevention

Journal of Cancer Prevention (JCP)

The aim of this Journal is to promote an increased awareness of all aspects that ultimately lead to cancer prevention. The Journal publishes important original studies, reviews, editorials, short communications, and letters to the editor with multi-disciplinary perspectives in the areas of carcinogenesis, chemoprevention, molecular epidemiology, and cancer biology. The Journal publishes basic, clinical and translational research with special attention given to molecular and cellular discoveries of novel risk factors and chemopreventive agents.

JCP has been indexed in the PubMed Central archive, National Library of Medicine (NLM), and Google Scholar. Every manuscript appears in the PubMed. In addition, JCP has applied to SCOPUS in mid Dec.2014 and the acceptance will be decided soon. In addition, 2015 citation index was calculated as 1.525 by JCP's own analysis.

Please visit the JCP website (<http://www.jcpjournal.org>) for more information and to submit your manuscripts.

Day 1

12. 08. 2017 (Fri)

International Conference on the 22nd Annual Meeting of the Korean Society of Cancer Prevention

The Centennial Hall (2F, Samsung Convention Hall) of Sookmyung Women's University

Moderator: Jeongseon Kim (Nat'l Cancer Center, Korea)

09:00~09:30 Registration

09:30~09:50 Opening Ceremony

Opening Remark

Mi-Kyung Sung

(President of Korean Society of Cancer Prevention, Sookmyung Women's University, Korea)

Congratulatory Address

JungAi Kang (President of Sookmyung Women's University)

About Journal of Cancer Prevention

Marc Diederich (Seoul Nat'l University, Korea)

Session I UNDERSTANDING CELLULAR HETEROGENEITY FOR CANCER TREATMENT

Supported by Sookmyung Women's University, Cellular Heterogeneity Research Center

Chairperson : Myeong-Sok Lee, Jongmin Kim (Sookmyung Women's University, Korea)

09:50~10:15 **Fuchou Tang** (Peking University, China)
Dissecting tumor heterogeneity with multiomics

10:15~10:40 **Kyeung Min Joo** (Sungkyunkwan University School of Medicine, Korea)
Drug response prediction by single cell RNA-sequencing

10:40~11:05 **Hae-Ock Lee** (Samsung Medical Center, Korea)
Tumor landscape at single-cell resolution

11:05~11:30 **Jong Kyoung Kim** (DGIST, Korea)
Single cell analysis of cell-to-cell variability

Plenary Lecture I

Supported by Seoul Nat'l University, Tumor Microenvironment Global Core Research Center

Chairperson: Young-Joon Surh (Seoul Nat'l University, Korea)

11:30~12:00 **Masami Suganuma** (Saitama University, Japan)
Biophysical approach to mechanisms of cancer prevention and treatment with green tea catechin and other phytochemical

12:00~13:30 *Group photo & Lunch*

Moderator: Young Rok Seo (Dongguk University, Korea)

Session II CANCER TARGETS AND NATURAL COMPOUNDS

Supported by Chonbuk Nat'l University Hospital, Clinical Trial Center for Functional Foods

Chairperson: Seong Jin Kim (Seoul Nat'l University),
Soo Wan Chae (Chonbuk Nat'l University Hospital, Korea)

13:30~13:55 **Antonis E. Koromilas** (Lady Davis Institute for Medical Research, Canada)
Shc1 adaptor simultaneously balances Stat 1 and Stat 3 activity to promote breast cancer immune suppression

13:55~14:20 **Han-Jung Chae** (Chonbuk Nat'l University, Korea)
mTORC1 and mTORC2 at cancer

14:20~14:45 **Sung-Keun Chung** (Korea Food Research Institute, Korea)
Natural phytochemicals overcome drug resistance in cancer growth

14:45~15:10 **Jong-eun Kim** (Dongguk University, Korea)
Bakuchiol suppresses proliferation of skin cancer cells by directly targeting Hck, Blk, and p38 MAPkinase

15:10~15:25 *Coffee Break*

Special Lecture

Chairperson: Tae Il Kim (Yonsei University College of Medicine, Korea)

15:25~15:55 **Nayoung Kim** (Seoul Nat'l University Bundang Hospital, Korea)
Prevention of gastric cancer by way of Helicobacter pylori eradication

15:55~17:00 KSCP General Meeting

President: Mi-Kyung Sung (Sookmyung Women's University, Korea)
General Secretary: Jung Eun Lee (Seoul Nat'l University, Korea)

17:00~17:30 *Award*

17:30~ *Gala Dinner*

Day 2

12. 09. 2017 (Sat)

International Conference on the 22nd Annual Meeting of the Korean Society of Cancer Prevention

The Centennial Hall (2F, Samsung Convention Hall) of Sookmyung Women's University

Moderator: Boyoung Park (Nat'l Cancer Center, Korea)

09:00~09:30 Registration

Chairperson: Joon Seok Choi (Daegu Catholic University, Korea)

09:30~10:00 Best Poster Presentation

Moderator: So Young Bu (Daegu University, Korea)

Session III CHEMOPREVENTION TARGETING CANCER STEM CELLS

Supported by Sookmyung Women's University, Research Center for Cell Fate Control

Chairperson: Jae Ha Ryu, Young Yang (Sookmyung Women's University, Korea)

10:00~10:25 **Sukjoon Yoon** (Sookmyung Women's University, Korea)
Phenotypic screening and data mining for targeting cancer stem cells

10:25~10:50 **Jeong-Seok Nam** (Gwangju Institute of Science and Technology, Korea)
Wnt/ β -catenin signaling and its cross-talk in cancer stemness

10:50~11:15 **Ssang-Goo Cho** (Konkuk University, Korea)
Regulation of self-renewal and tumorigenic properties of high sphere-forming CD44^{low}/CD133^{high}/CXCR4^{high}/ALDH1^{high} rnsjdy cancer stem-like cells (CSLCs)

11:15~11:40 **Yong Tae Kwon** (Seoul Nat'l University, Korea)
Proteasomal inhibition selectively kills cancer stem cells in gliomas

Plenary Lecture II

Supported by Sookmyung Women's University, Post Genome Research Center

Chairperson: Jong Hoon Park (Sookmyung Women's University, Korea)

11:40~12:10 **Kyungjae Myung** (Ulsan Nat'l Institute of Science and Technology, Korea)
Dissecting molecular mechanisms of DNA repair and potential translation to clinical application

12:10~13:10 *Lunch*

13:10~13:40 *Poster Rounding & Coffee Break*

Session IV ANTI-CANCER DRUGGABLE TARGET AND POTENTIAL ANTI-CARCINOGENESIS

Supported by Yonsei University, BK21 PLUS Project for Bioactive Nutrition

Chairperson: Young Nam Cha (Inha University, Korea),
Hyeyoung Kim (Yonsei University, Korea)

13:40~14:05 **Min Huang** (Shanghai Institute of Materia Medica, China)
Feedback activation of leukemia inhibitory factor receptor in breast cancer

14:05~14:30 **Britt Burton Freeman** (Illinois Institute of Technology, USA)
Berries and their phytochemicals: A role in modern day disease risk reduction

14:30~14:55 **Hyungshin Yim** (Hanyang University, Korea)
A potential therapeutic target, polo-like kinase 1, for cancer therapy

14:55~15:20 **Siwang Yu** (Peking University School of Pharmaceutical Sciences, China)
Nrf1 and Nrf2 in the pathogenesis, prevention and treatment of liver diseases

Moderator: Eunmi Park (Hannam University, Korea)

15:20~16:00 *Poster award & Closing Ceremony*
